

# Cyber safety

When online it is extremely important to stay safe.

- \* Never give out ANY personal information online, including name, age, school, sport teams or any other personal information.

- \* Never agree to meet ANYONE you meet online in real life because online people can pretend to be whoever they wish, no one can be trusted!

- \* If someone claims to be your friend ask questions that only you and your friend would know, that is a simple way to ensure the safety of both you and your friend online
- \* Keep password top secret and not too easy to guess such as...

- \* Online etiquette
- \* DON'T USE CAPS AS IT IS TAKEN AS SHOUTING!
- \* Never say things online that you would not say to someone's face

- \* Password123
- \* 1234
- \* 4444
- \* Password
